

A New World of Cooling

# SS COOLING CREATORS

Manufacturer of **Cooling Towers & Spares**

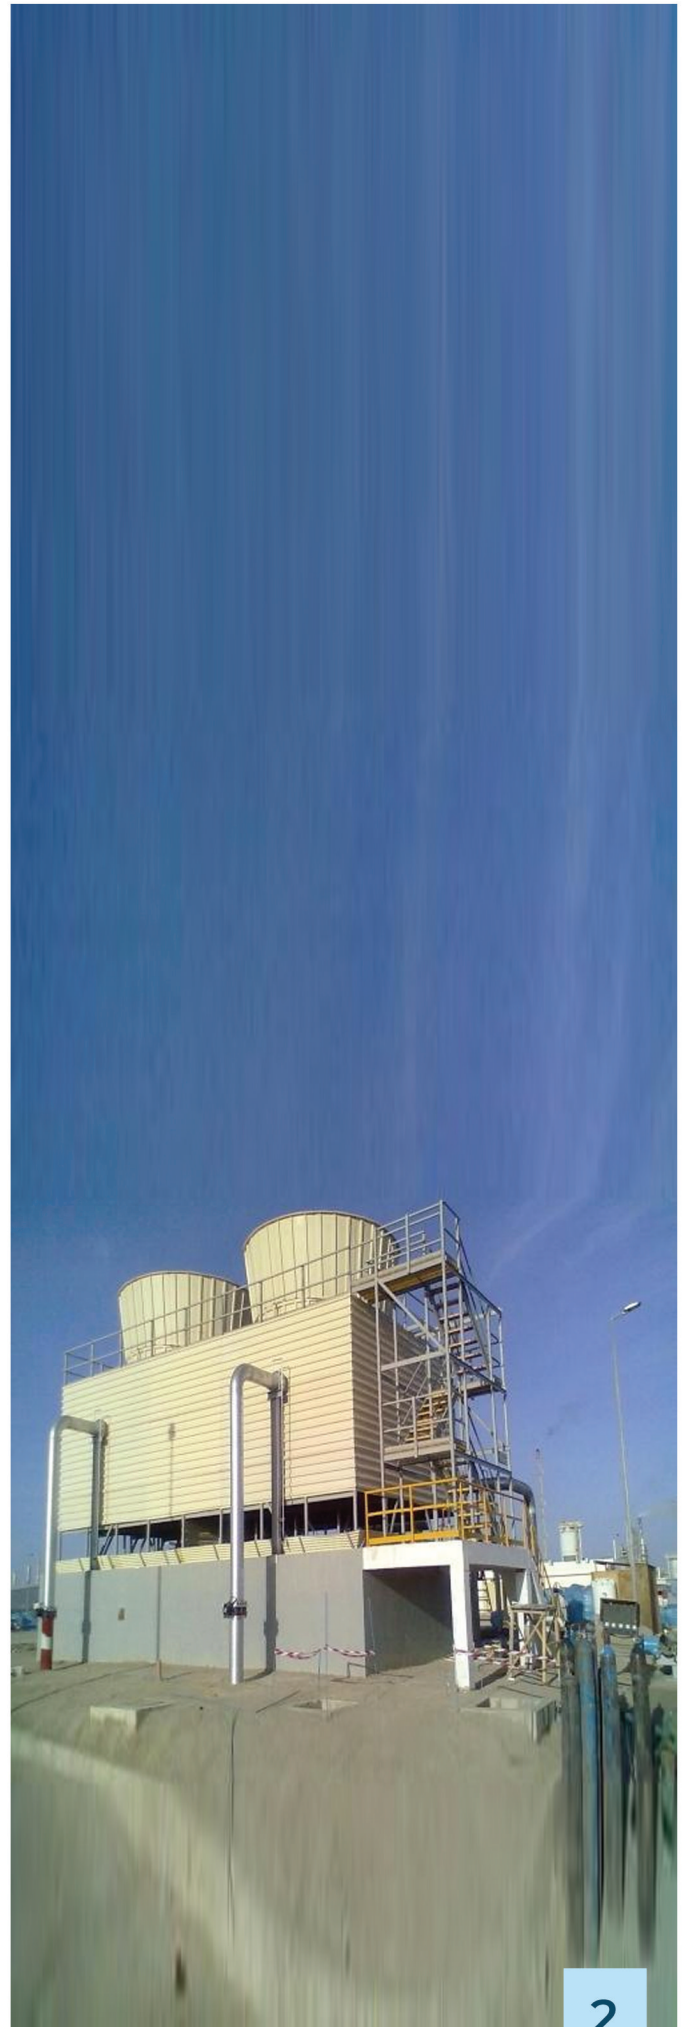

## About us:

Welcome to SS Cooling Creators, founded by Mr. Saktimoy Chatterjee to become a new market leader in the field of cooling tower industry. We have started with the objective to supply prime quality products with a reliable & low cost service to our customers over many years.

SS Cooling Creators is one of the leading companies operating in cooling tower industry. Based in Kolkata, we are a multi product & multi-divisional organization. Our main business segments are wooden cooling towers & mechanical spares & services.

At SS Cooling Creators, we have a highly experienced team of engineers & professionals lead by The Director of our company Mr. Saktimoy Chatterjee, who has an immense experience of 41 years in the field of cooling tower industry.

We have updated & international standard equipments & facilities for manufacturing & testing the components of cooling tower systems. We ensure quality control at every step of manufacturing the components to achieve our quality policy standard & to meet the requirements of our clients.

## Why Choose us?

- Over 40 years of experience in the development, design, production, installation and maintenance of cooling towers.
- Wide range of modular products available for any size.
- Main USP of the company is after sales support.
- We work with wide range of international standard spares & components of the Cooling Technology.
- Customizable to your demands by our own experienced engineers.

## Services We Provide

### Technical Service :

We have a full-fledged engineering back-up team to assist customers right from the project feasibility study stage. We encourage our customers to come to us with all their queries related to Cooling tower systems. The proper time to call us is at the earliest stage when you started planning for your project.

### After Sales Service :

After sales service for all our products is guaranteed to all clients. Field service teams are available at any time to assist consulting engineers, tower owners and tower operators. We only seek complete satisfaction of our clients with our products and after sales service.

### Reconstruction Service :

At SS Cooling Creators the reconstruction of any existing Cooling towers – whether it is our's or a competitor's – is given the same in-depth system analysis as given in the designing of a new tower. The precise combination of new and existing can be chosen to accomplish desired results.

### Annual Maintenance Service :

We at SS Cooling Creators, has a highly experienced team of professionals who can take care of your cooling tower systems throughout the year. From technical to mechanical services we can provide you with complete dedication and satisfaction.

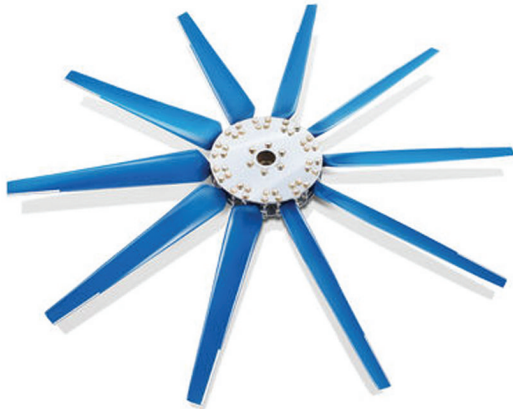

# Products We Have

## Fan Sets & Spares :

FRP/Aluminum fans & their spares like hub cover, clamp, through bolts etc.

Statically balancing of fan assemblies (of all diameters).

High Efficiency Power Saving FRP Fan (of all sizes) and their spares.

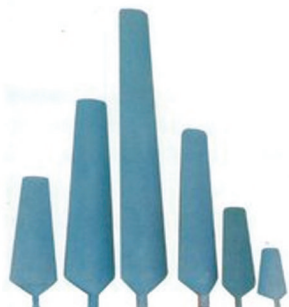

FRP fan set

Al Alloy Fan Assy

Fan Hubs

Power Saving Fan Blades

Grommet

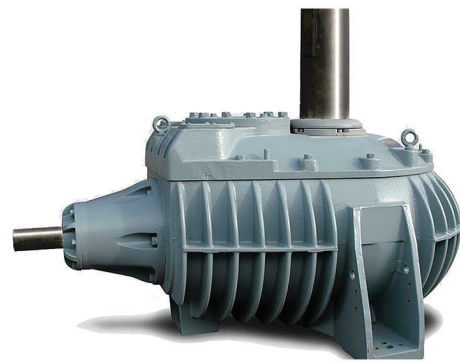

## Gear Reducer & Spares :

All Gear Reducer internals like Gear set, Fan Shaft, Bearing, Oil seal, 'O' ring, Shim Set, Ring Gear Hub, Water slinger etc.

Single Stage Gear Reducer

Double Stage Gear Reducer

Bearing Set

'O' Ring

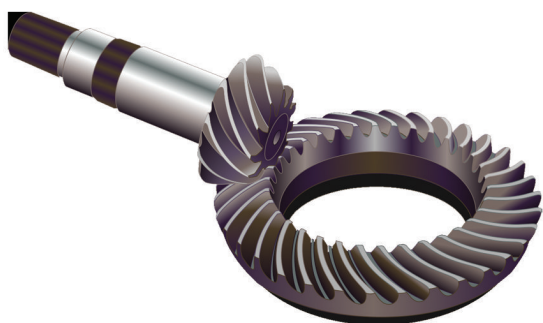

Oil Seals

Hose Pipe

## Gear Match Sets :

- Helical Gear match set (of all ratio; in all series)
- Spiral Bevel Gear match set (of all ratio; in all series)

Spiral Bevel

Helical Gear Set

## Drive Shafts :

Dynamically balanced drive shafts & its spares in HDG & SS 304 construction. Available in all series.

Drive Shaft Assy

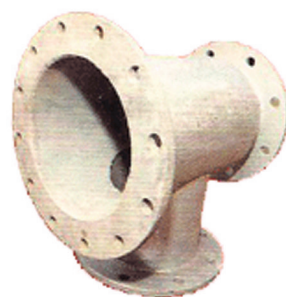

Couplings

## Flow Control Valves & TEE :

TEE, Flow control valve & its spares, available in all sizes.

Flow control valve

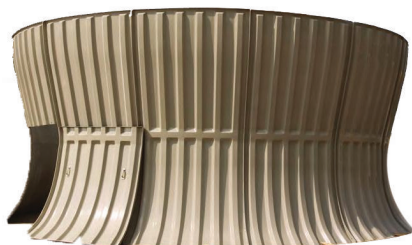

TEE

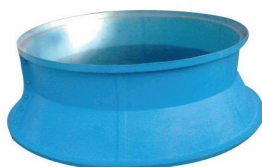

## Fan Cylinders & Fan Guards :

FRP Fan cylinder available in low ventury & high ventury, all sizes.

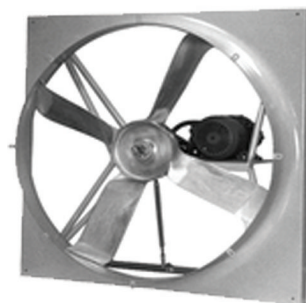

Fan cylinder available in all sizes.

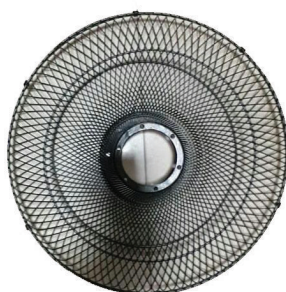

High Ventury (FRP)

Low Ventury (FRP)

Fan Cylinder

Fan Guard

## Nozzles :

PVC & PP spray nozzles (all types).

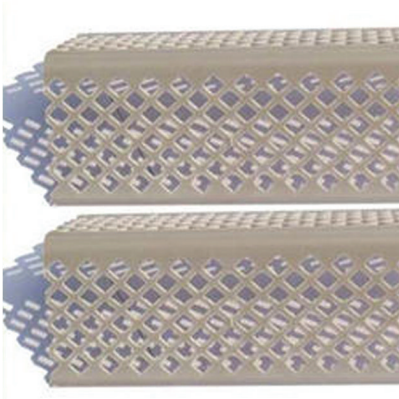

Nozzles

## V bar & Other accessories :

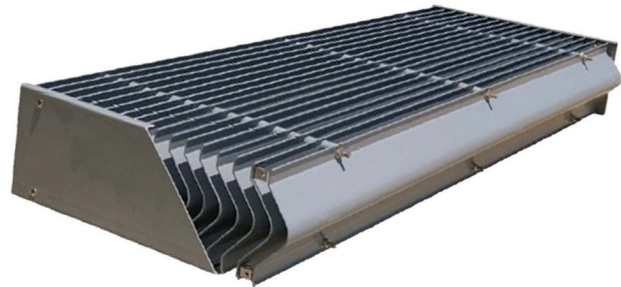

PVC 'V' bar, Eliminator, Spacer, Bench tie, tie clip, 'D' lock.

PVC V Bar

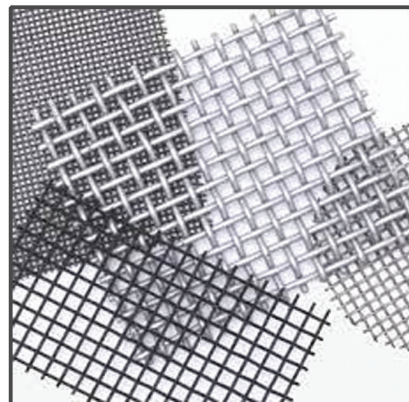

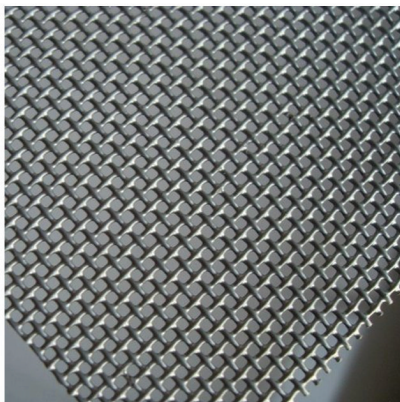

D- Lock

PVC Eliminator with Spacer

## SS Wire Grids :

SS 104 Wire fill support Grids, (More durable in comparison to FRP Grids; It can be re-used 3-4 times in subsequent repairing of your cooling tower).

SS Wire Grids

A New World of Cooling

## Hardware :

Bolt, Nut, Washer, U bolts, Coach screw in HDGI & SS construction.

Hardware

U Bolts

Bolt, Nut & Washer

Coach Screw

SS Screw Shank Nails
